

# iQIYI User Guide

## 1. Download and Register

Search for 'iQIYI' in the app store, download, and install it.

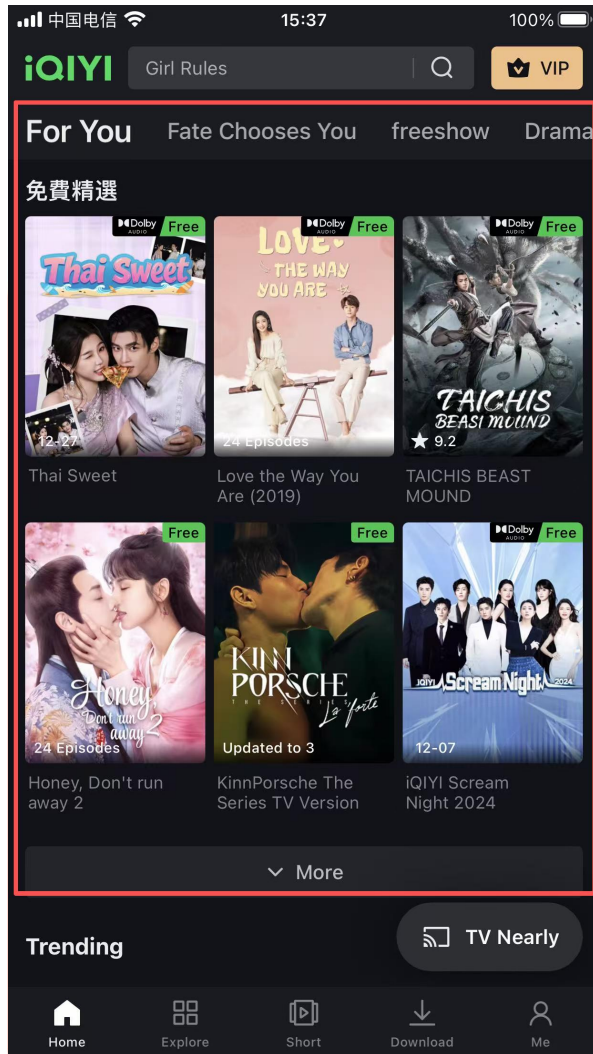

1. Registration and Login: Supports quick login via mobile phone number, email, etc. After registration, you can complete your personal information, bind your mobile phone number, and sync watch history and favorite content.

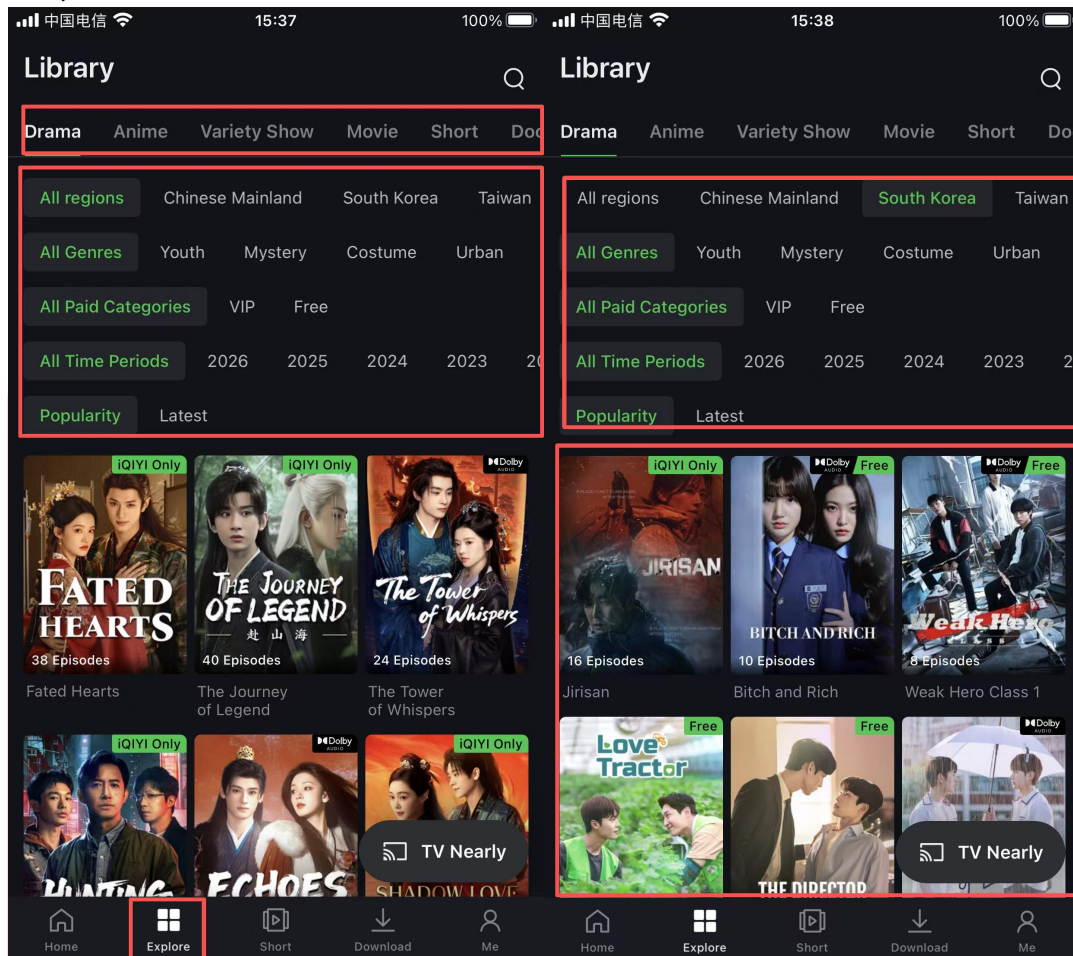

## 2. Content Browsing and Search

Homepage Recommendations: The homepage recommends popular series, movies, variety shows, anime, documentaries, and other content based on viewing history and interest tags. Pull down to refresh to see more.

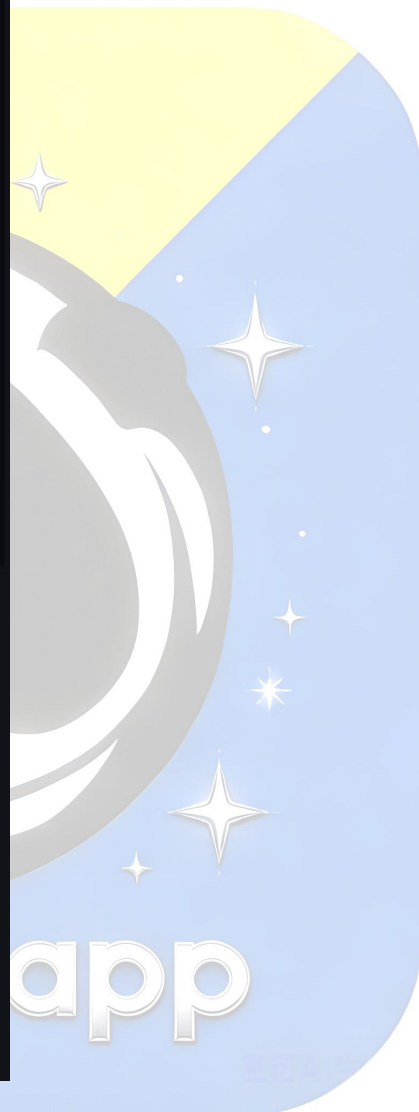

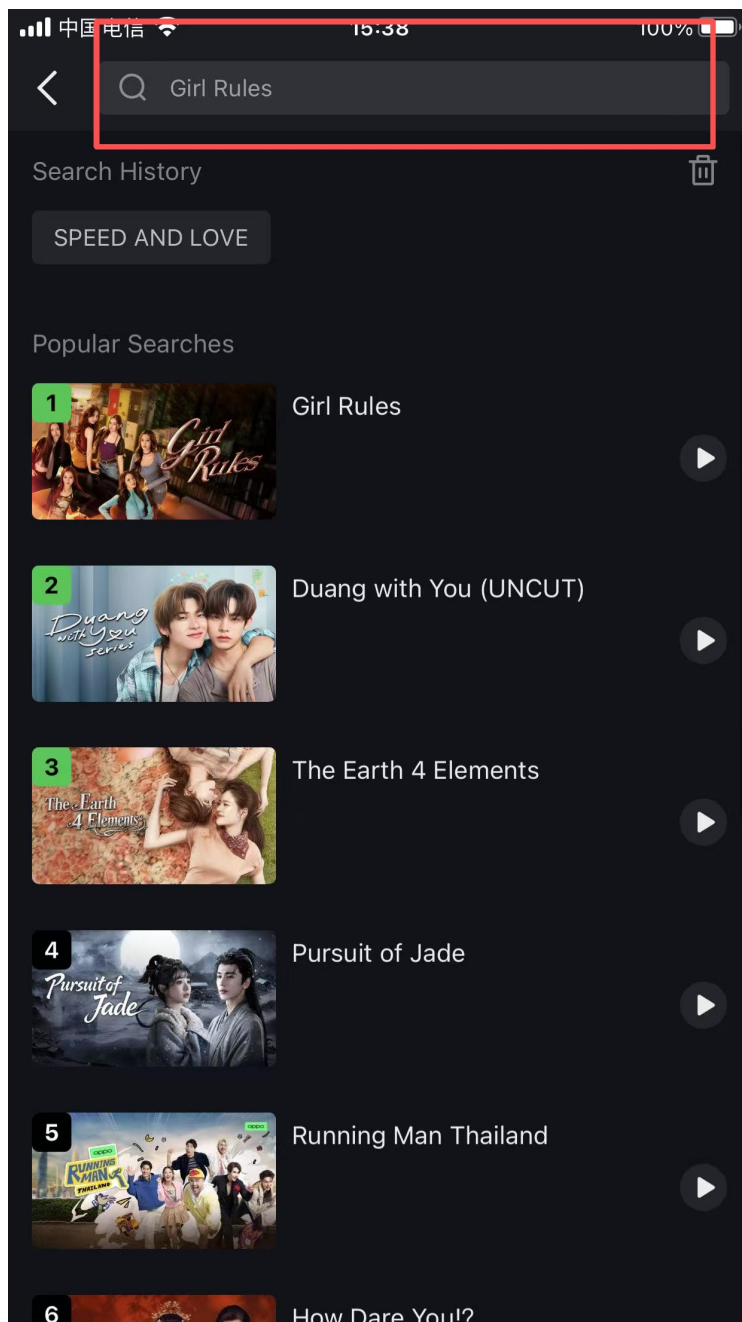

lchnigo.app

Category Filtering: Click the top 'Series', 'Movies', 'Variety Shows', and other categories to enter the category page. It supports filtering by region (Mainland China, Hong Kong dramas, American dramas, etc.), genre (suspense, romance, comedy, etc.), year, and rating, allowing you to quickly find your favorite content.

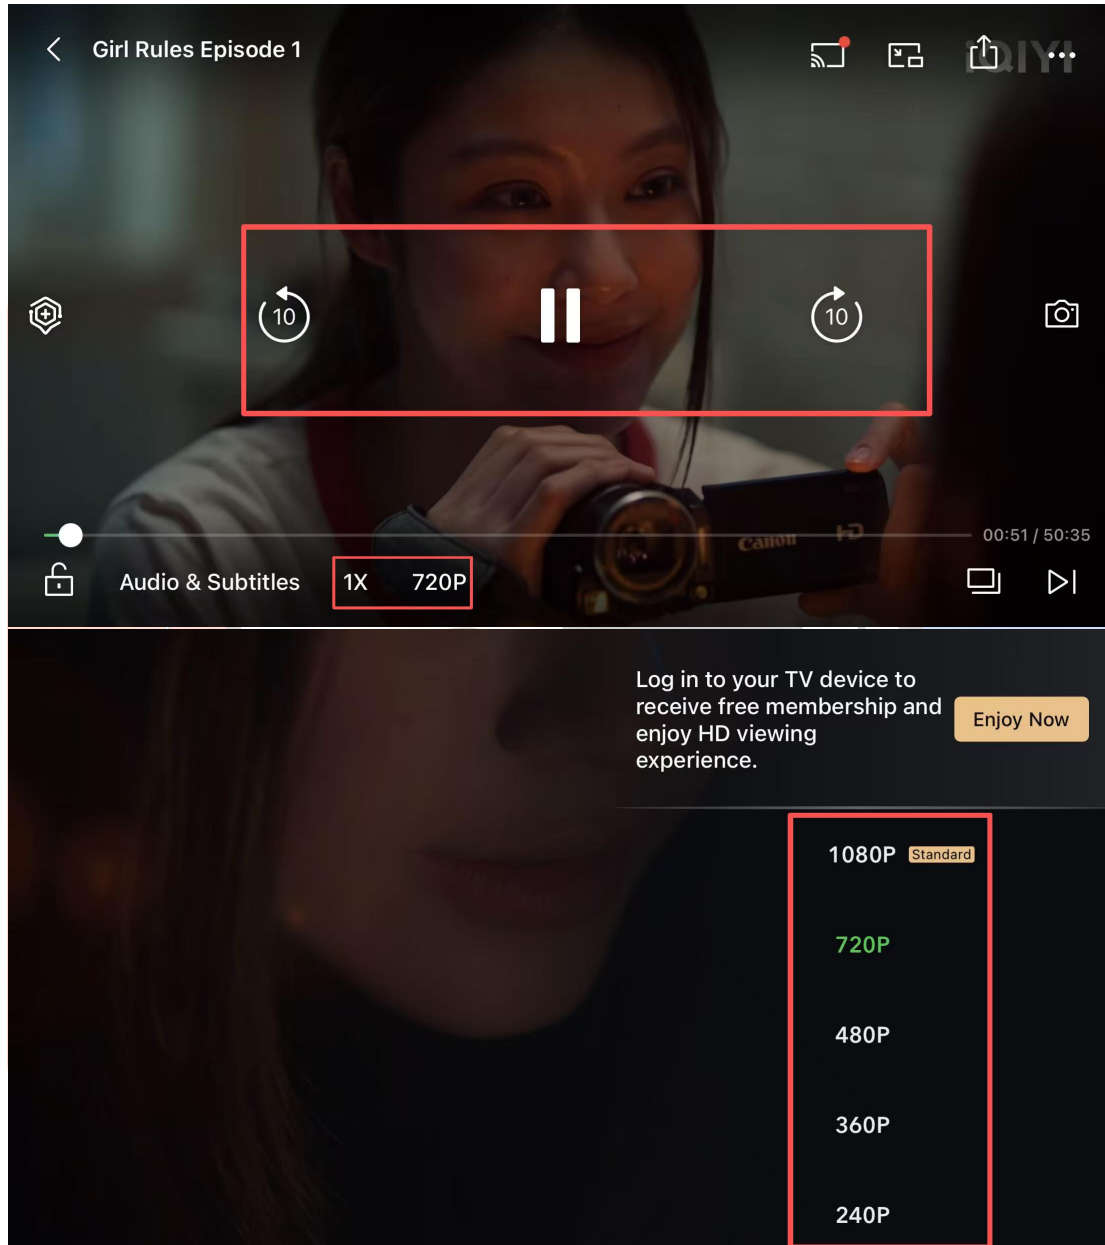

ichingo.app

Search Function: Enter the movie name, actor's name, or keywords in the top search box to quickly find the target content; supports voice input, and the search results include the main feature, behind-the-scenes clips, and related recommendations.

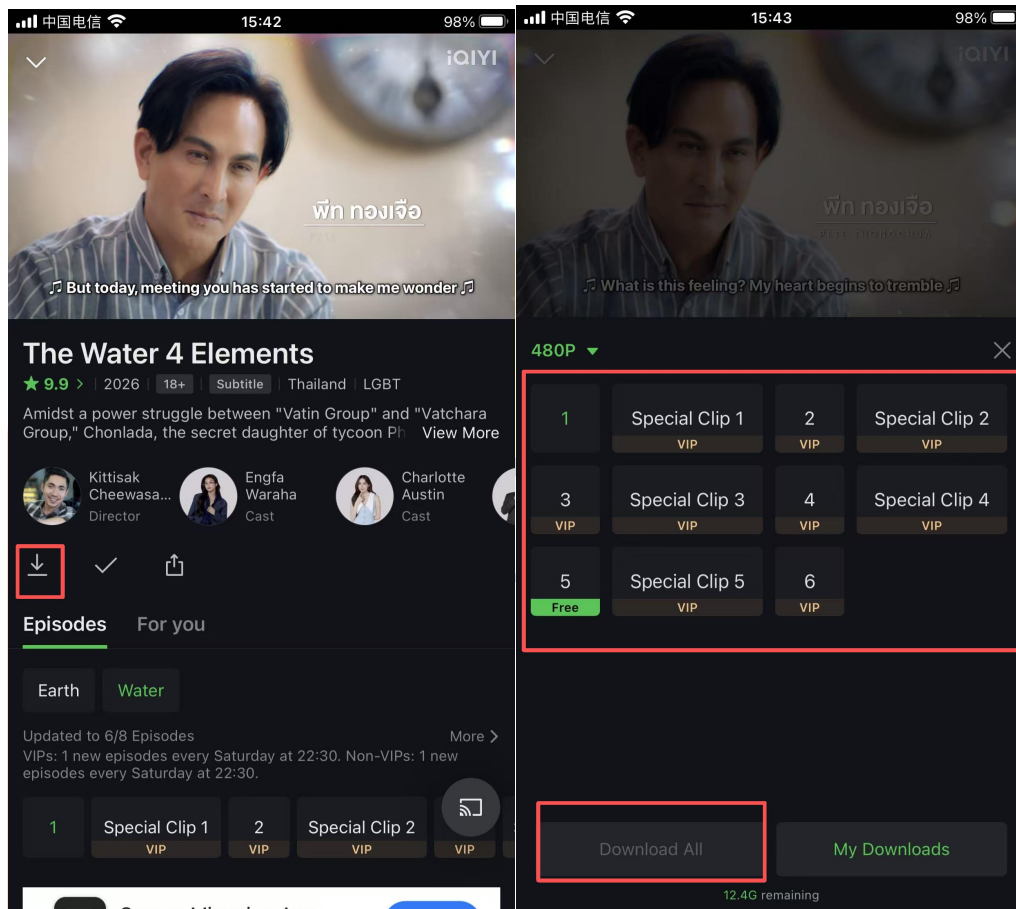

### 3. Video Playback and Settings

Playback operations: Click on the video to enter the playback page, supporting pause, fast forward, rewind, speed adjustment (0.5x-2.0x), and quality adjustment (SD, HD, etc., some quality options require a membership).

Cache: Some videos support caching (downloading). Click 'Cache' to select the resolution, and you can watch offline without an internet connection after downloading.
