Phone number registration: enter phone number → receive verification code → complete registration

Login functions: translation records, favorites, and vocabulary book synchronized across multiple devices, no data loss when changing phones.

3. Homepage Overview

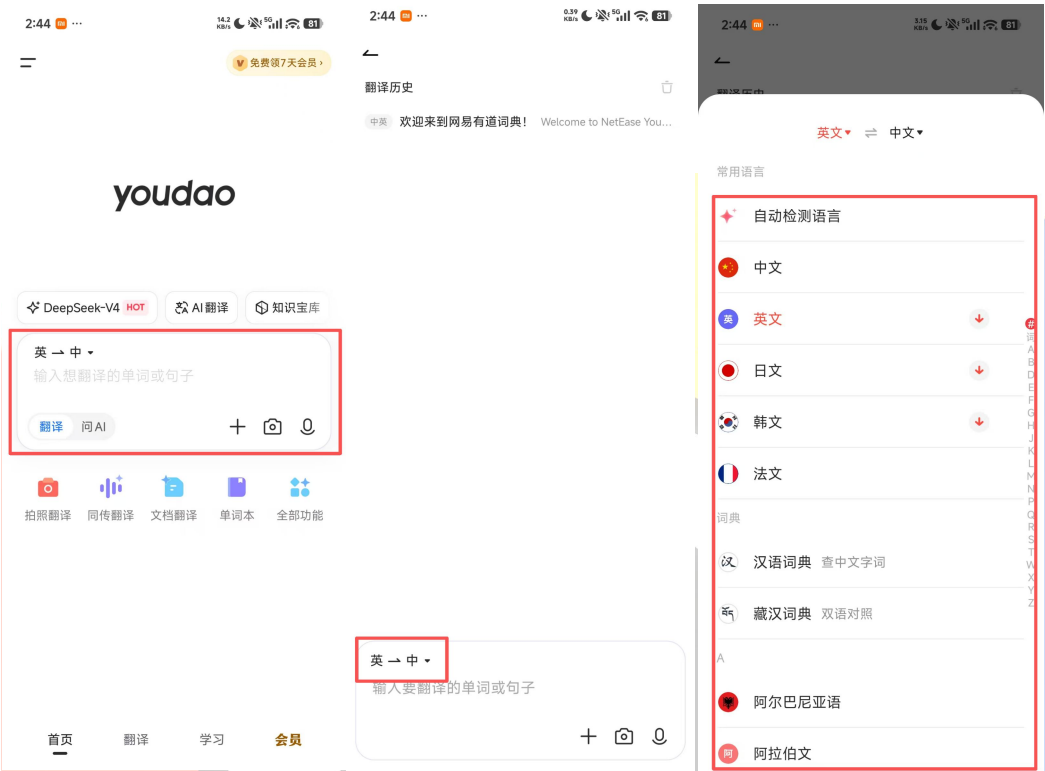

Core 5 Major Functions: Text Translation, Photo Translation, Voice Translation, Document Translation, Offline Translation

4. Detailed Steps for Using Each Function

1. Text Translation (Most Commonly Used Daily)

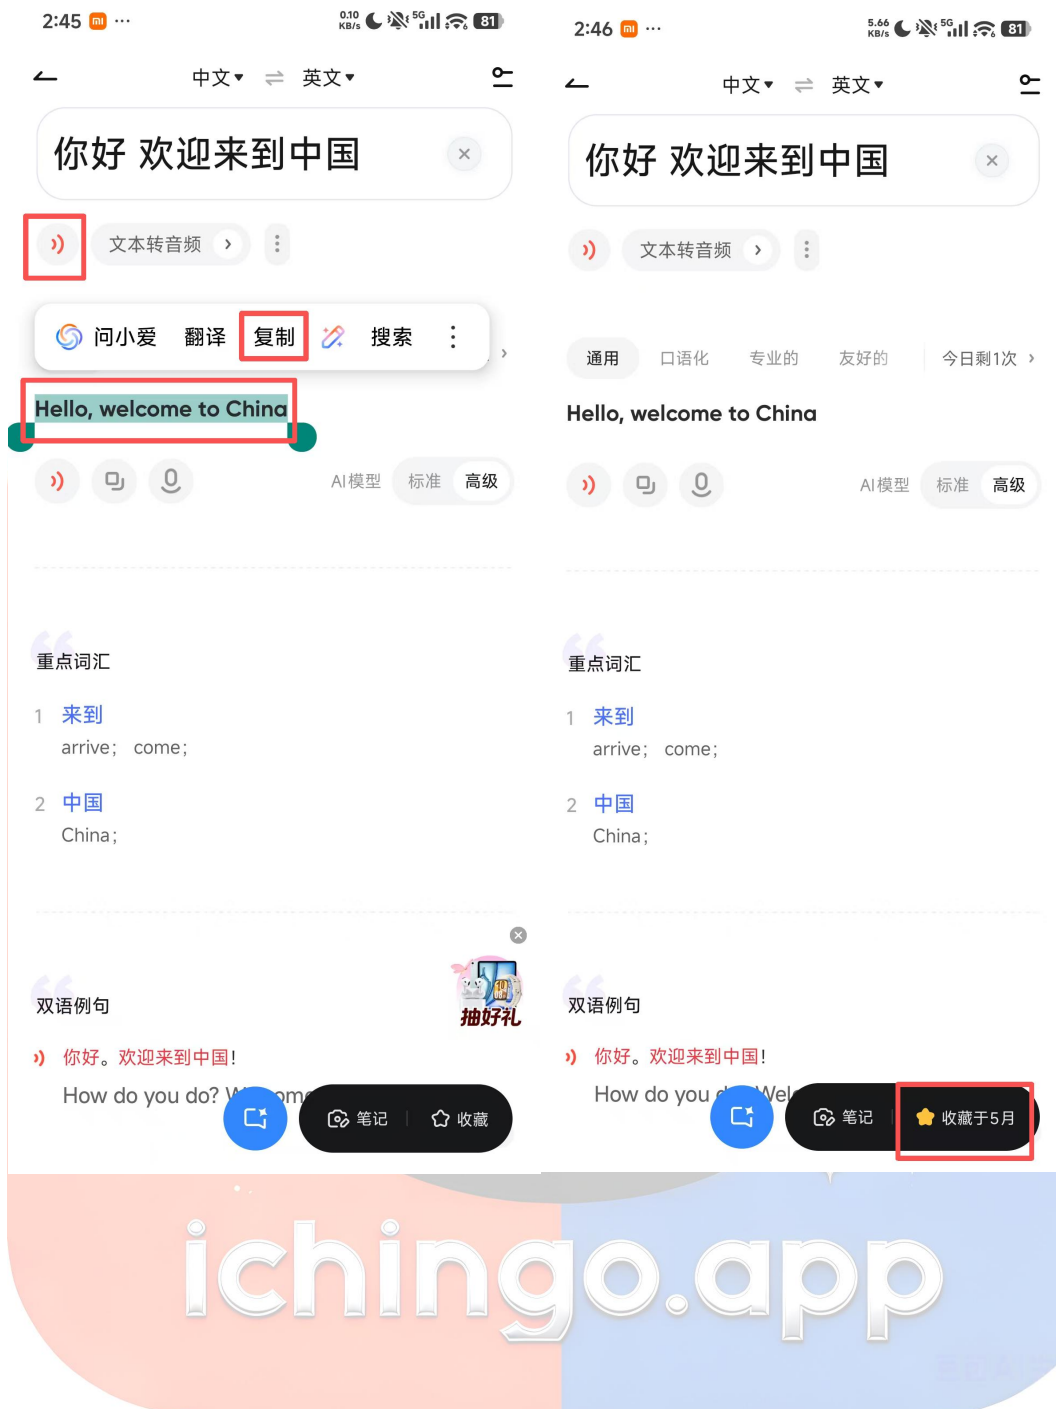

Input box at the top of the home page, select the language above (source language / target language, can set to auto-detect)

Manually enter or paste text, sentences, or paragraphs, and get translation results instantly

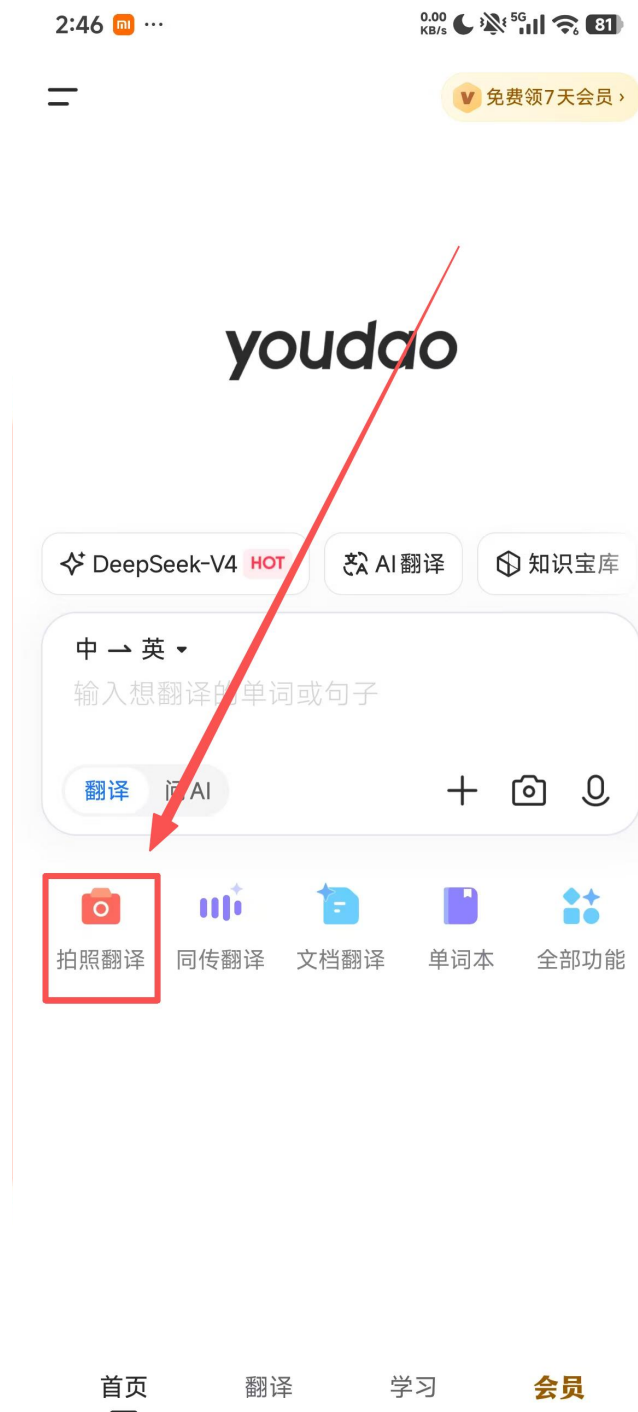

Copyable translation, read aloud pronunciation, favorite, add to vocabulary notebook

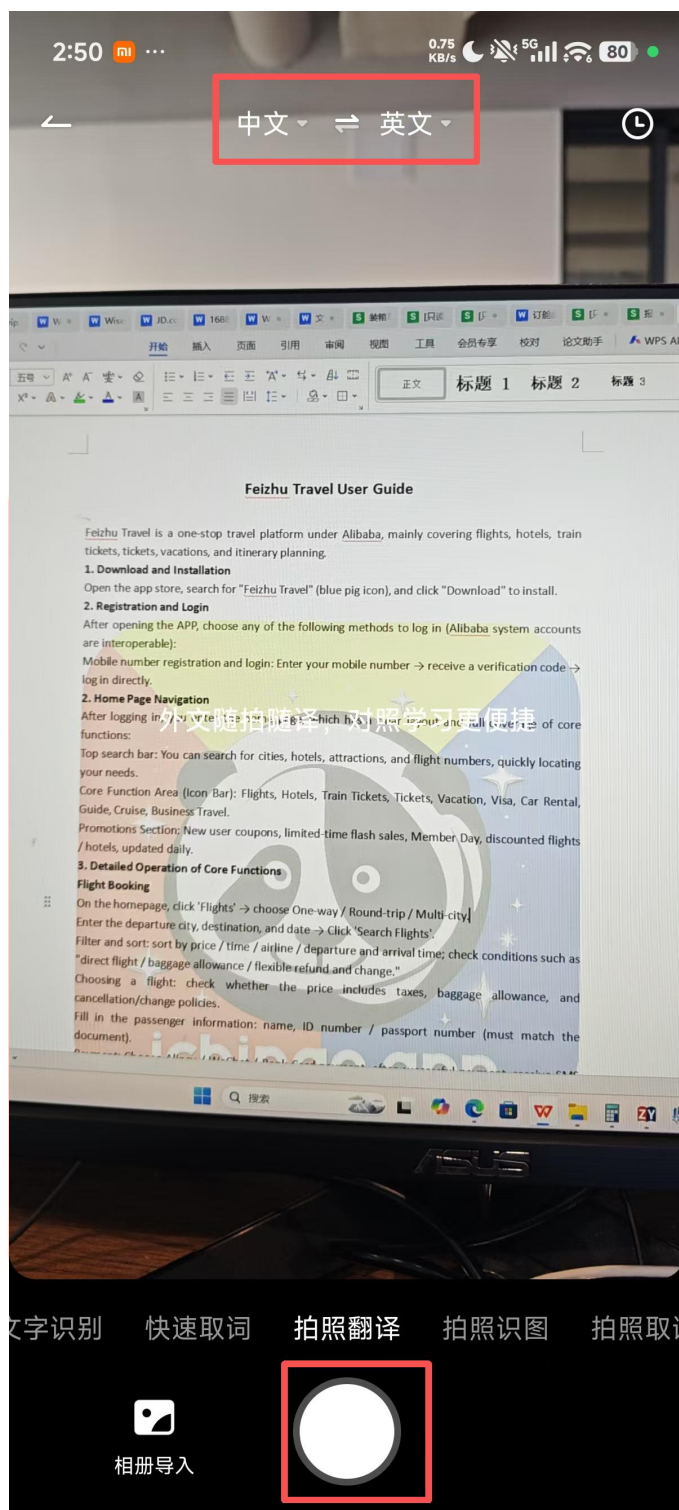

2. Photo Translation (Documents / Manuals / Foreign Paper Materials)

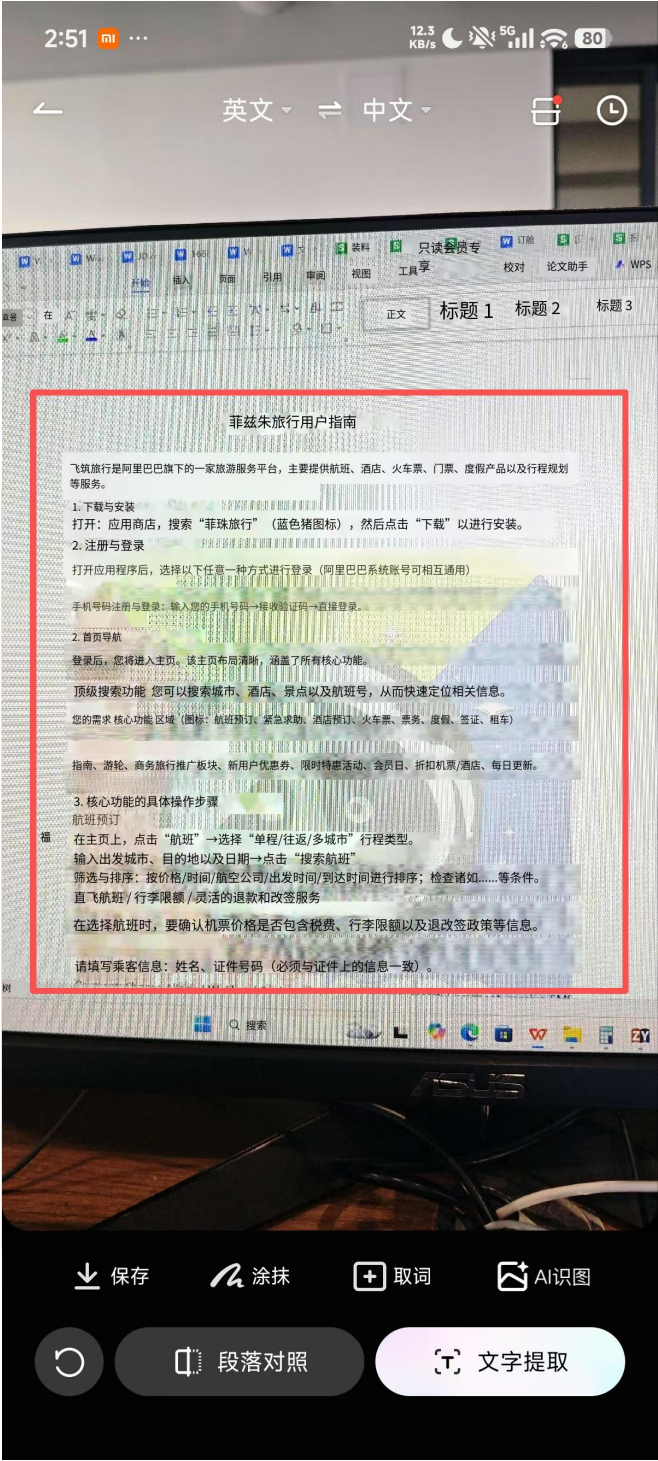

Tap 'Photo Translation' on the homepage

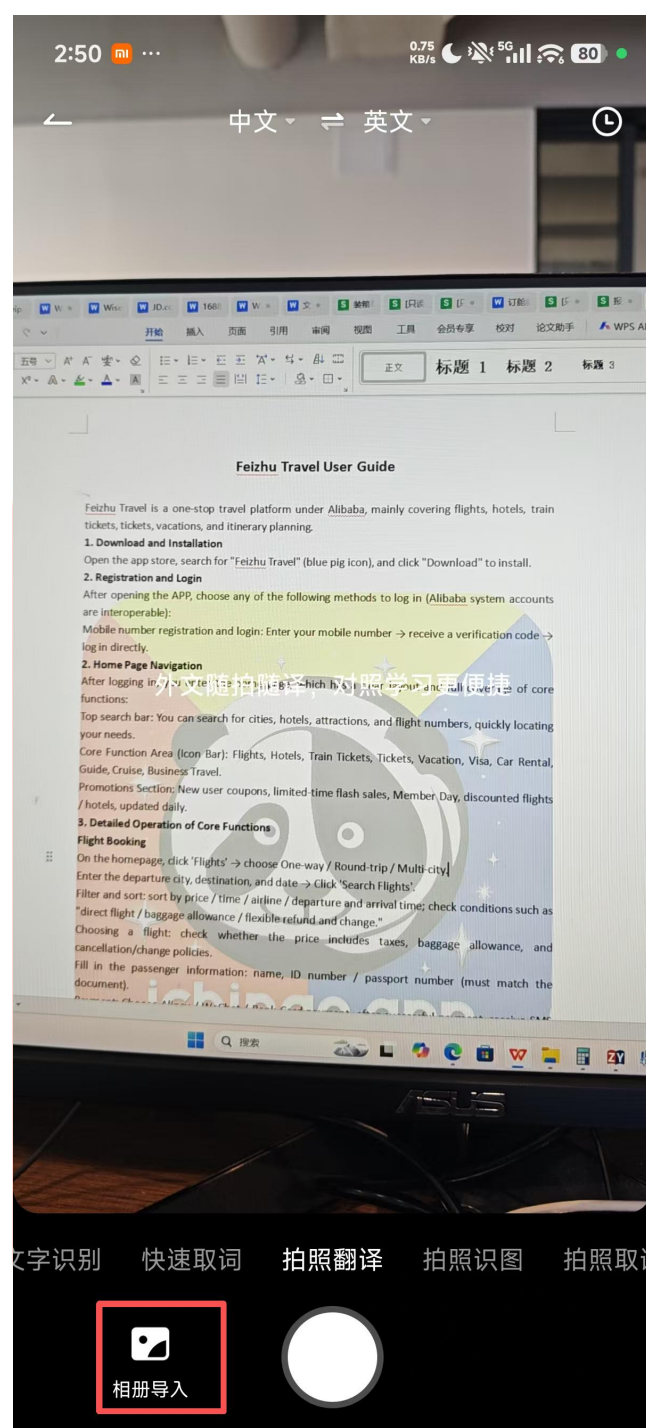

Align with the foreign text and click to shoot

Automatically recognize text and translate in real time

You can manually select an area or choose a saved image from the album to translate

Support copying translated text and saving translation images

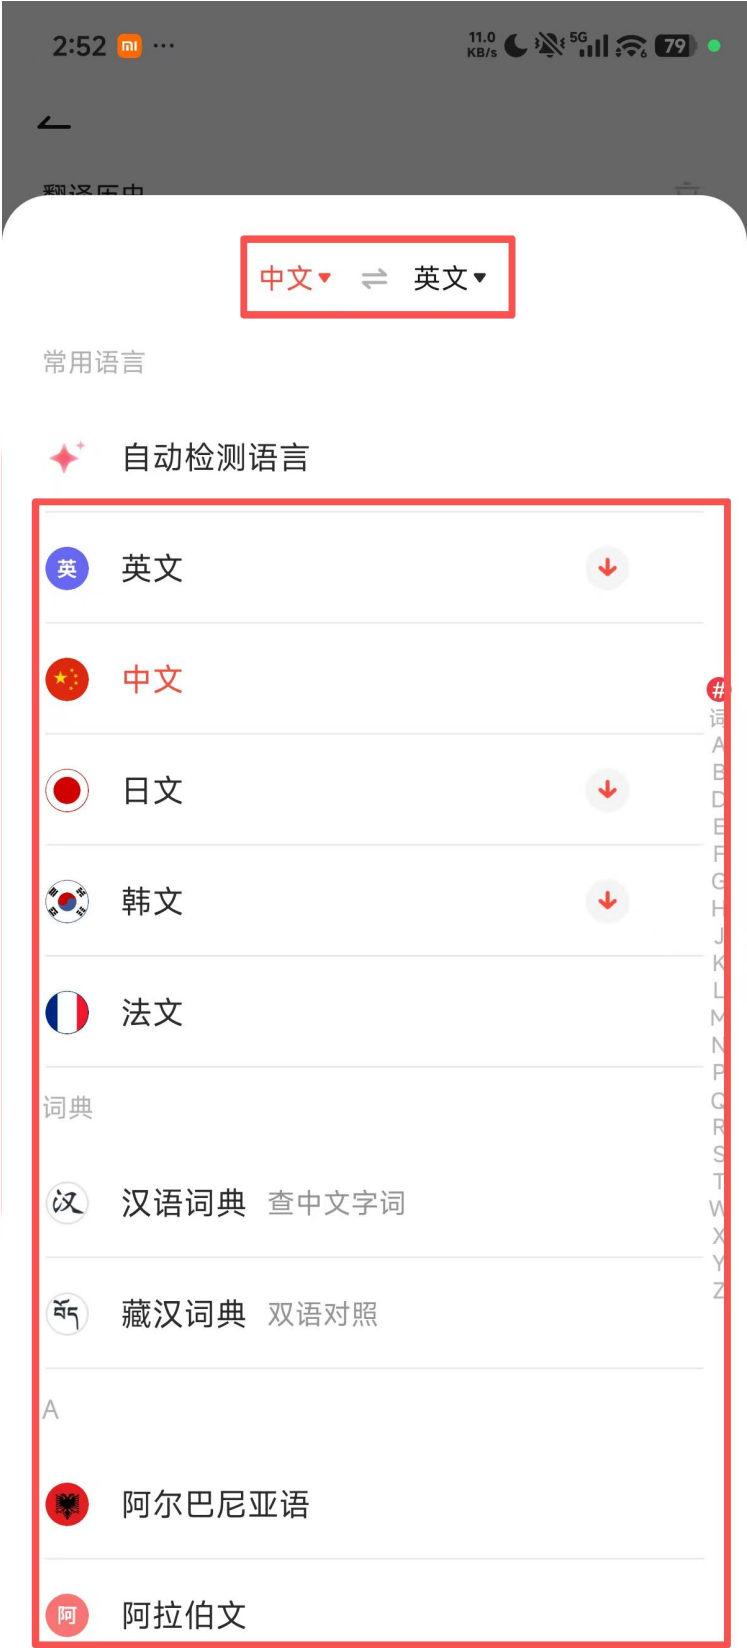

3. Voice Translation (Foreign Trade Communication, Real-Time Conversation)

Enter Voice Translation from the homepage

Select the language for mutual translation (such as Chinese to English, Chinese to Persian)

Hold the microphone to speak, release to automatically translate

翻译历史

中英 你好 欢迎来到中国 Hello! Welcome to China

中英 欢迎来到网易有道词典! Welcome to NetEase You...

中 → 英

正在听，请说中文或英文

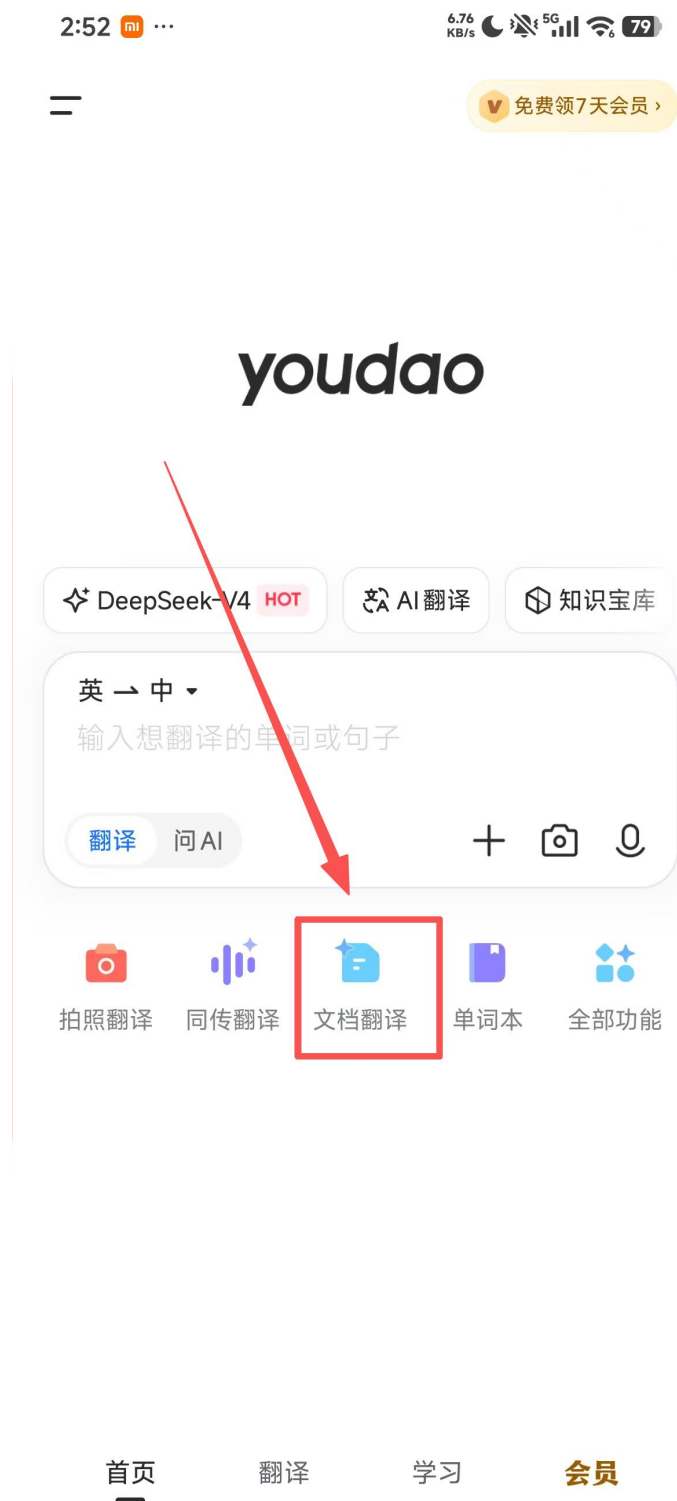

Both parties take turns switching languages, with real-time bilingual display, suitable for calls and face-to-face communication with foreign clients

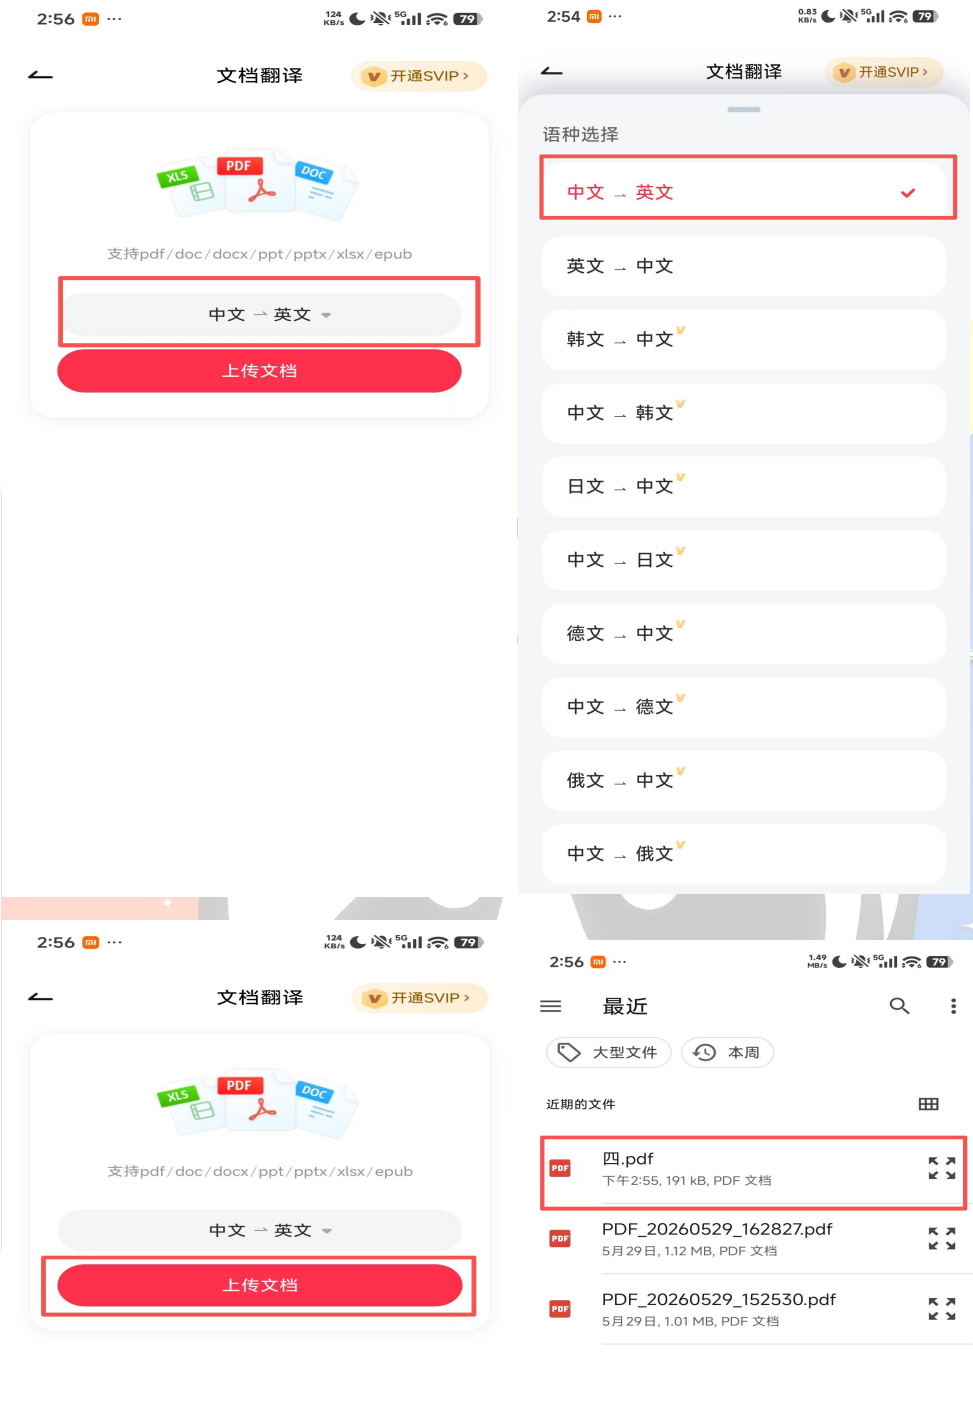

4. Document Translation (Contracts / Customs Documents / Complete Manual Translation)

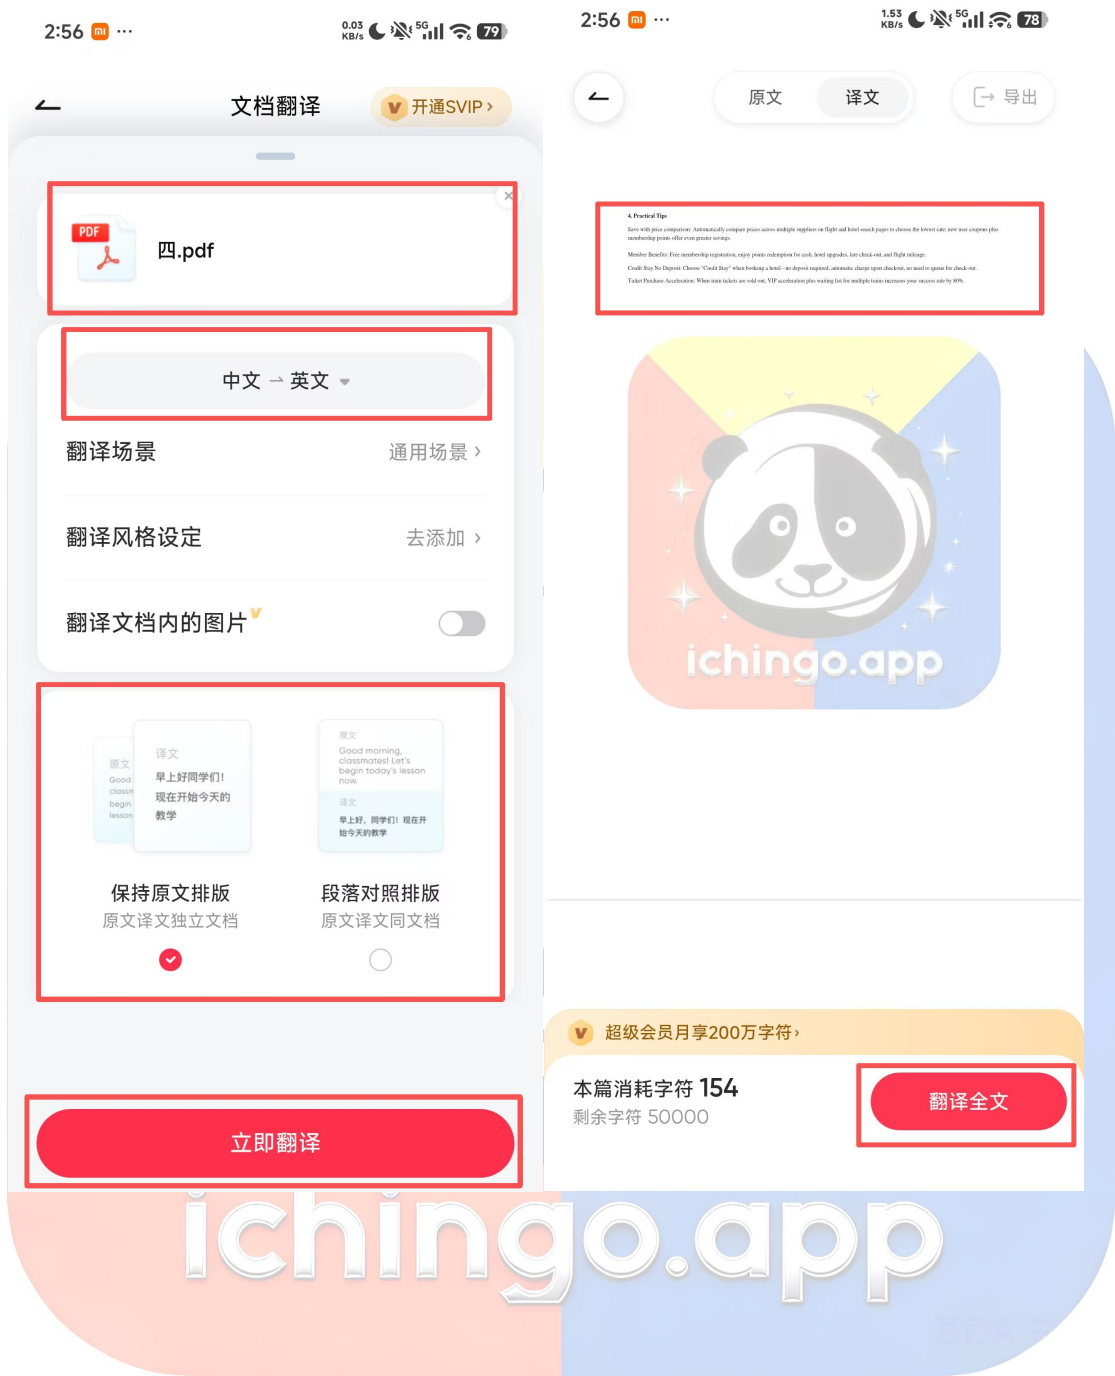

Click on the homepage for Document Translation

Upload PDF, Word, Excel, PPT files, and select the source and target languages

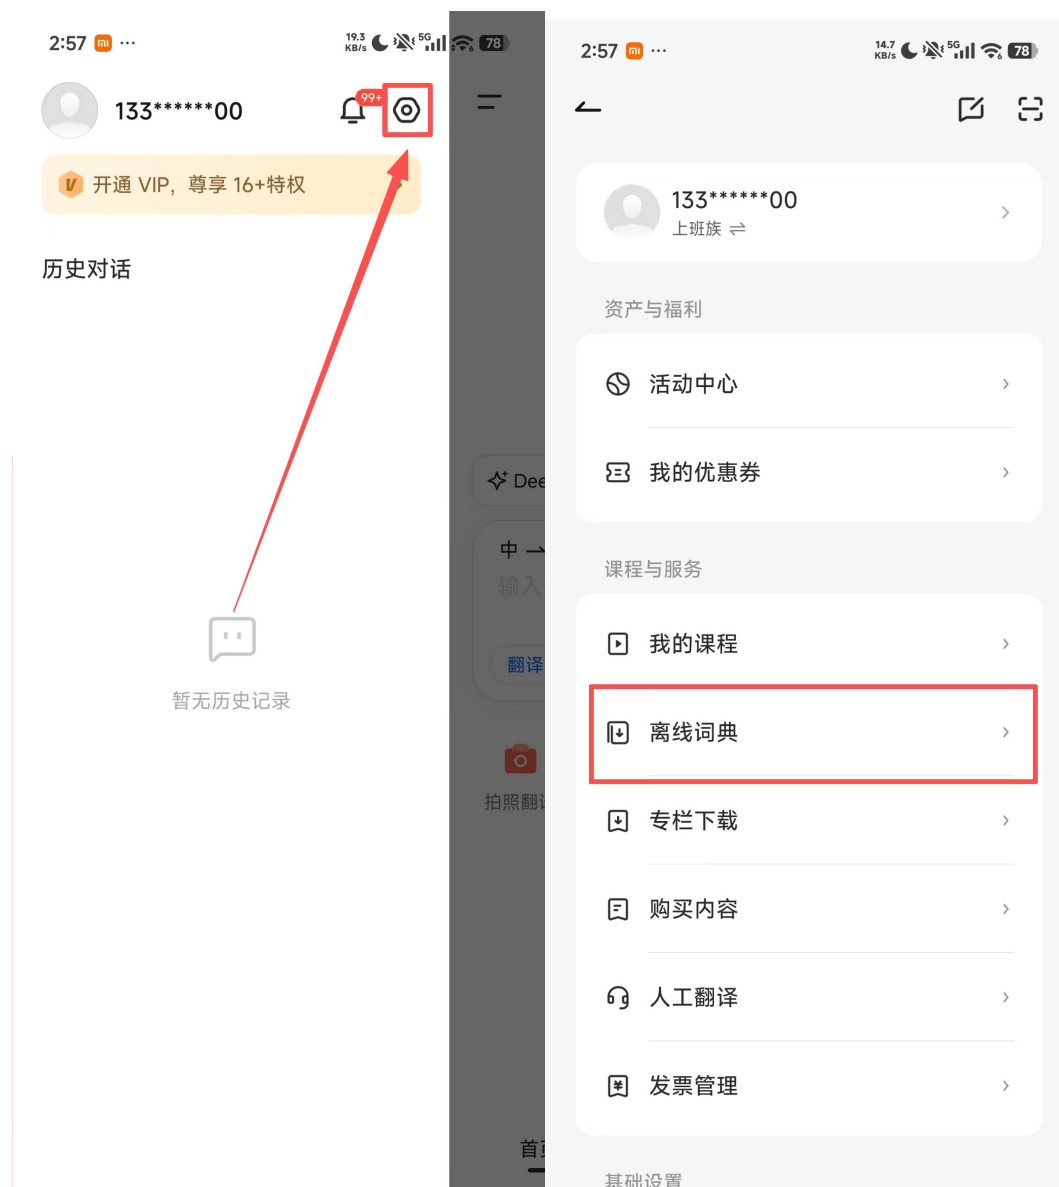

One-click full-text translation, retaining the original formatting, with options to view bilingual comparison and export the translated file

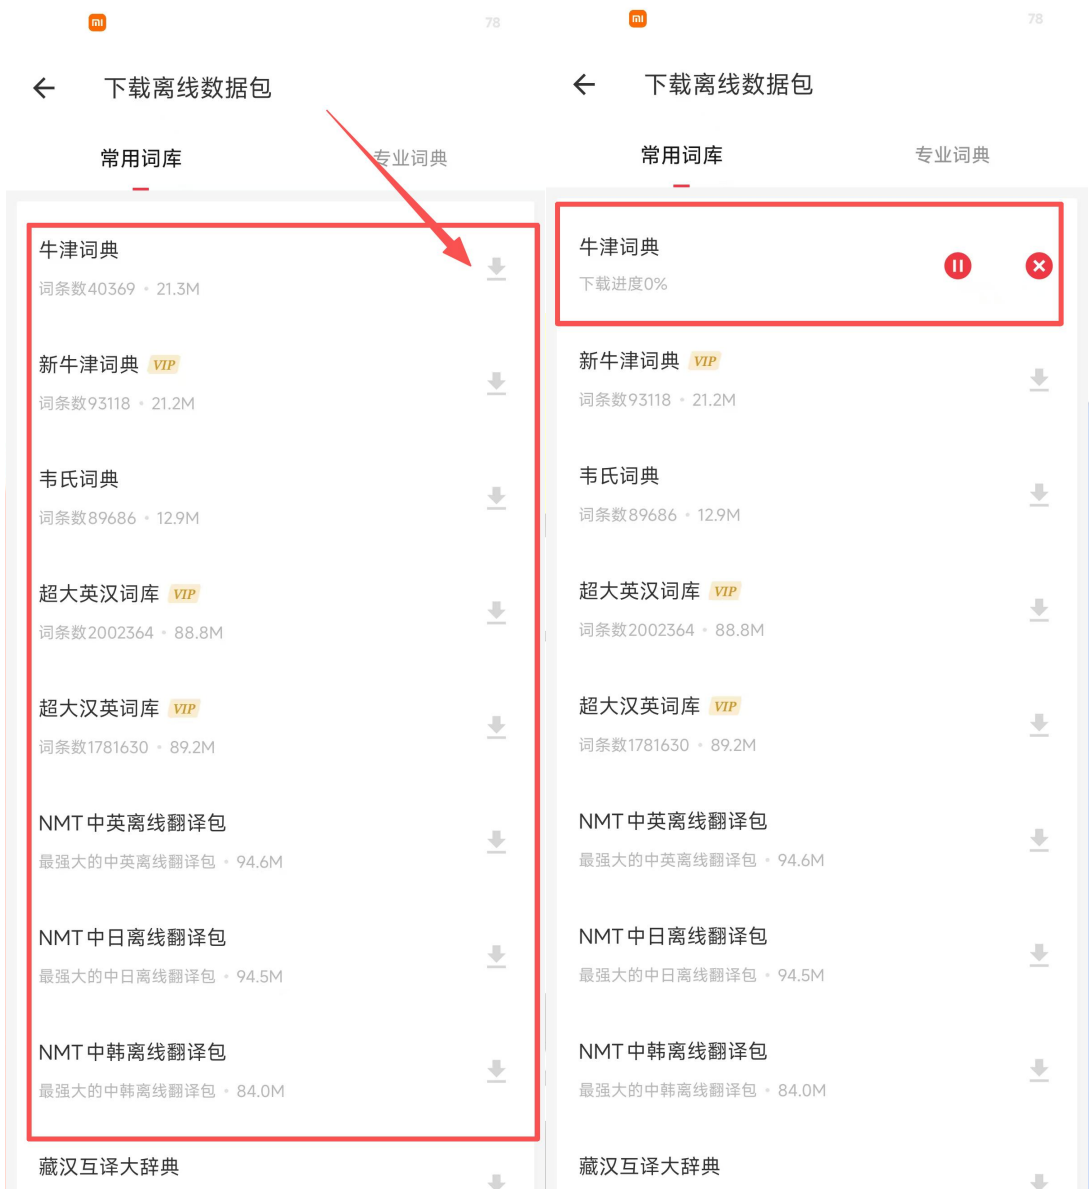

5. Offline Translation (No Internet Available)

Mine → Offline Translation Pack

ichingo.app

Download commonly used language offline packs

You can use text and photo translation even without internet, so it can be used abroad or at construction sites without a network.
